

Respa

Application Recommendation

Quality

Long Distance

Long distance traffic on straight roads. Few acceleration and braking forces.

Regional Traffic

Short distances in regional application with common acceleration and braking forces.

*** / **

Mixed Application

Constant short distance application at different road surfaces.

*** / **

Urban Traffic

Application in city areas with many stops (Citybusses, refuse collectors, commune vehicles).

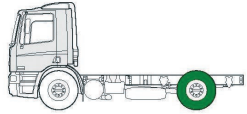

*** / ** / *

Off Road

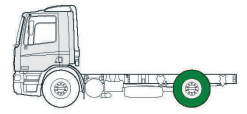

Application in construction areas and quarries.

*** / ** / *
